The REAL GRAN PEÑA is one of Spain's four oldest Clubs. Our present premises -we had two different ones before-, were inaugurated in 1917 by H.M. King Alfonso XIII. At present we have about one thousand male members belonging to the highest circles of the Spanish society, culture, and business.

Our Honorary President is His Majesty the King Felipe VI.

Our premises, which are fully owned by the club, consist of a large seven story building located at the beginning of the Gran Vía Street of Madrid. Our installations in this large structure are quite varied: several meeting rooms, reception rooms, living rooms, classic dining rooms, three large libraries, one of them with over sixty thousand volumes, reading and game rooms, video and film facilities, a classic and large billiard parlour, etc.

Members are allowed to come with their wives and guests, gentlemen, and ladies, who are permitted to enjoy all our premises, except the game rooms, the large library and one bar exclusively reserved for our members and for the members of our correspondent Clubs.
